

K. VISWA SAI RAHUL

21-194, Rajaji street,
oldtown, Anantapur, Andhra Pradesh-
515001. Mobile No: +91 7675018383
Email: viswasairahul34@gmail.com

Objective

Seeking a position with an organization where I can contribute my skills for organization's success and synchronize with new technology while being resourceful, innovative and flexible.

Academic Profile

Course	Board / University	Year	CGPA / Percentage
B. Tech In ECE	Presidency University	2016-2020	5.92/10
PU	Sri Chaitanya Junior Kalasala	2014-2016	80.02%
SSLC	Keshava reddy concept school	2003-2014	87.36%

Software Skills

- Programming Languages: Basic C, Basics of java, MATLAB,
- Tools: Microsoft Office (Excel, Word, PowerPoint), MATLAB, Proteus, Keil.

Industrial Exposure

1. TESCOM

Timeline: 13/08/2018 to 26/09/2018

Technology: PCB Manufacturing

2. SAHYADRI ELECTRO CONTROLS INDIA PVT.LTD

Timeline: 27/01/2020 to 11/03/2020

Technology: ASSEMBLING OF PANEL
ANNUNCIATOR

Projects

Mini Project

1) Title: water level indicator using 8051

Abstract: This project illustrates the construction and working of a **liquid/water level indicator**. Such an indicator is used in tanks to indicate the level of liquids and alert us when the tank is full. So by this we can monitor the various levels of the tank and can avoid spillage of water and also we can configure our supplies according to the various levels of tank. Such module or circuit can be installed in big buildings where manual monitor of tanks is difficult and its indicator can be placed at some centralised place.

2) Title: Assemmbling of panel annunciator

Abstract: The developers of automation systems often view annunciators as devices that can be supplanted by screens on human-machine interface (HMI) monitors. On further analysis, there are compelling reasons for many plant and station engineers to include annunciators in new designs. These reasons include the following. Providing alarm notification independent of computers or networks. Using a standalone annunciator that communicates with a substation automation system to Provide rapid alarm notification to all personnel, rather than only those with computer access credentials and training. Locate remote annunciators to present alarm conditions determined by the system to provide value to personnel in that area.

Activities

- Volunteer in cultural activities, college fest.
- Volunteer in social service activities

Personal Strenghts

- Hard working and good at team work.
- Rapid at learning things.

Hobbies

- Reading books
- Playing Cricket
- Travelling

Personal Details

Date Of Birth: 30th January 1999

Marital Status: Single

Nationality: Indian

Languages Known: English,Telugu,Kannada

Declaration

I hereby declare above written particulars are true to the best of my knowledge and confidence.

Date:25/09/2020

Place: Anantapur
